

Extensions built using Hooks Extensions Framework

1. Webfilters: <https://github.com/aulasneo/openedx-webhooks?tab=readme-ov-file#introduction>
2. Webhooks: <https://github.com/aulasneo/openedx-webhooks?tab=readme-ov-file#introduction>
3. Prevent enrollment from non-authorized users (non partners): <https://github.com/academic-innovation/mogc-partnerships/commit/04f7dcad90a973114af31f6094afc28d06702e86>
4. Prevent enrollment from non-authorized users (email domain not allowed per course): https://github.com/fccn/nau-openedx-extensions/blob/653f5d49b4d726f051b379448f4cb4db3a3a34ba/nau_openedx_extensions/filters/pipeline.py#L17
5. Stop registration process if institutional email is found: https://github.com/UAMx/uamx-social-auth/blob/main/uamx_social_auth/pipeline.py
6. Render alternative course about from external source: https://github.com/lektorium-tutor/lektorium_main/blob/00ed7e3bd57f4a5363ae7fbd89ecc0619c576701/lektorium_main/tilda/pipeline.py#L3
7. Hide course about from non-partners: https://github.com/academic-innovation/mogc-partnerships/blob/ef8384f4e177a93cfe6ec163b561d1e2d91c103d/tests/test_pipeline.py#L103
8. Add edit "Edit on Git" on top of each child of verticals: <https://github.com/open-craft/openedx-edit-links>
9. Verification of skills by users: <https://github.com/openedx/taxonomy-connector/blob/master/docs/decisions/0001-xblock-skill-tagging-design.rst#verification-of-skills-by-users>
10. Filter user enrollments by tenants: https://github.com/eduNEXT/eox-tenant/blob/1d072b58ceb00e0379ae08b00ab77e87a11c601d/eox_tenant/filters/pipeline.py#L11
11. Filter certificates by org: https://github.com/eduNEXT/eox-tenant/blob/1d072b58ceb00e0379ae08b00ab77e87a11c601d/eox_tenant/filters/pipeline.py#L34
12. Add skill tags to vertical blocks UI: https://github.com/openedx/xblock-skill-tagging/blob/18df758c284f455619dc846298d313352b520a63/skill_tagging/pipeline.py#L77
13. Change homepage URL for course: https://github.com/edx/federated-content-connector/blob/e06f38241a0470d6b7cd6657dc826f4716725483/federated_content_connector/filters/pipeline.py#L14
14. hook to modify courserun data for B2C dashboard: <https://github.com/edx/federated-content-connector/pull/15> → PREGUNTARLE A **irfanuddinahmad**
15. Fetch re-usable LTI configurations from external plugins: <https://github.com/openedx/xblock-lti-consumer/blob/master/docs/decisions/0006-pluggable-lti-configuration.rst> <https://github.com/openedx/xblock-lti-consumer/pull/239>
16. Add instructor tab to integrate LimeSurvey service: <https://github.com/eduNEXT/xblock-limesurvey/blob/7c396ae49fc4b92e82650430f160c296a08e0555/limesurvey/extensions/filters.py#L6>
17. Add instructor tab to integrate OnTask service: [filters.py](#)
18. Add instructor tab to show feedback aggregated data: <https://github.com/openedx/FeedbackXBlock/blob/665f1548dffe84e7896ca0d22ace147030233dcb/feedback/extensor>
19. Add instructor tab to configure email frequency for forum digests: https://github.com/eduNEXT/platform-plugin-forum-email-notifier/blob/da6005c972df97bfac6a6153eb108d1bef499eb9/platform_plugin_forum_email_notifier/extensions/filters.py#L7
20. Integration with external payment services like stripe, titan: https://github.com/edx/commerce-coordinator/blob/4172675dbcb0e9eb2c34aa2a5fc250de24e7d4c/commerce_coordinator/apps/stripe/pipeline.py#L26 https://github.com/edx/commerce-coordinator/blob/4172675dbcb0e9eb2c34aa2a5fc250de24e7d4c/commerce_coordinator/apps/titan/pipeline.py#L7

21. Assign instructors to teams: https://github.com/eduNEXT/openedx-unidigital/blob/959e016459e98497763ded19fe9962484c1b4313/openedx_unidigital/filters.py#L7
22. Add instructor tab for Aspects reports: https://github.com/openedx/platform-plugin-aspects/blob/main/platform_plugin_aspects/extensions/filters.py
23. Avoid force publish course render: https://github.com/eduNEXT/platform-global-teacher-campus/blob/713760f01314d7535140233c1c193a48bc2c444c/platform_global_teacher_campus/filters/pipeline.py#L7
→ PREGUNTARLE A DEDALO PARA QUÉ SIRVE ESTO: el course author no puede publicar cursos, debe hacerlo una entidad externa
24. https://github.com/eduNEXT/platform-global-teacher-campus/blob/713760f01314d7535140233c1c193a48bc2c444c/platform_global_teacher_campus/filters/pipeline.py#L49
→ PREGUNTARLE A DEDALO PARA QUÉ SIRVE ESTO
25. Show data consent warning before submitting data to turnitin: https://github.com/eduNEXT/platform-plugin-turnitin/blob/03aaa0fcb089c61d18b71a25ce39bcc689c8f972/platform_plugin_turnitin/extensions/filters.py#L4
26. Send enrollment attempts email for course: https://github.com/eduNEXT/openedx-ceibal-plugin/blob/12b931b411761aafaafba749fd2a4798e4b412bd/openedx_ceibal_plugin/pipeline.py#L192
27. modify the returned value by the methods get_actor and get_objects: <https://github.com/openedx/event-routing-backends/pull/370> https://github.com/openedx/openedx-aspects/blob/20570b6babe67bba4bb83b521a5679e9bc4c63a8/docs/how-tos/xapi_transforms.rst#modifying-an-existing-transform
28. [event-tracking](#): used by [send_tracking_log_to_backends](#) → Hablar con Cristhian para conocer el estado actual de esto
29. <https://github.com/eduNEXT/openedx-events-2-zapier>: Zapier integration
30. <https://github.com/open-craft/openedx-events-sender>: Send Open edX events to selected URLs.
31. Webhooks:
32. <https://github.com/edx/edx-exams>: <https://github.com/edx/edx-exams/blob/b381833de5ce6cbe1ac1d9a76875e87bcfa452fc/docs/decisions/0004-downstream-effect-events.rst#L1-L2> edx-platform ↔ edx-exams integration, exams info updates, course roles
33. edx-ora2: <https://github.com/openedx/edx-ora2/pull/2201/files> Send Staff Notification
34. Notifications system (user/course wide): <https://github.com/openedx/edx-platform/pull/33666> <https://github.com/openedx/edx-platform/pull/33009>
35. Program certificates: <https://github.com/openedx/credentials/pull/2119>
36. Discussion topic configuration mechanism: <https://github.com/openedx/edx-platform/pull/29082>
37. System-defined automatic tagging: <https://github.com/openedx/edx-platform/pull/32599> <https://github.com/openedx/modular-learning/issues/61> <https://github.com/openedx/modular-learning/issues/78>
38. Course catalog info update: edx-platform ↔ course-discovery integration <https://github.com/openedx/edx-platform/commit/c1009b56f6a0b3f8acfab815e3fc55a6a1820612> <https://github.com/openedx/course-discovery/pull/3588> https://github.com/aht007/course-discovery/blob/bc46057f5b6f1c678c80828fc8581c00077326b7/course_discovery/apps/course_metadata/signals.py#L
39. Credentials emission process:
<https://github.com/openedx/credentials/blob/409a2cc7bbf2cc5237a1da7b51d72fe850b441a9/credentials/apps/credential>
[L21](#) → Signal receiver for course certificate events consumed from the Event Bus. Depending on the type of event consumed,
we will then try to award a credential to (or revoke a credential from) a learner
https://github.com/openedx/credentials/blob/236b770231a73e4c3c8e3442e7a8a1f1963b9a34/docs/event_bus.rst#ever
[consumed](#)
40. Enterprise subsidy records synchronization: <https://github.com/openedx/enterprise-subsidy/pull/227> (info en el PR de [openedx-events](#))

41. Link user to invite: create records before registration and update them after https://github.com/academic-innovation/mogc-partnerships/blob/ef8384f4e177a93cfe6ec163b561d1e2d91c103d/mogc_partnerships/receivers.py#L9
42. Automatic group association: https://github.com/eduNEXT/openedx-unidigital/blob/959e016459e98497763ded19fe9962484c1b4313/openedx_unidigital/apps.py#L41
43. Enterprise enrollments synchronization: <https://github.com/openedx/edx-enterprise/pull/1754>
44. Taxonomy connector system (updates in Xblock content): <https://github.com/openedx/taxonomy-connector/blob/master/docs/decisions/0001-xblock-skill-tagging-design.rst> <https://github.com/openedx/edx-platform/commit/6e28ba329e0a5354d7264ea834861bf0cae4ceb3> e.g. blocks language tagging
45. Forum email notifier: https://github.com/eduNEXT/platform-plugin-forum-email-notifier/blob/da6005c972df97bfac6a6153eb108d1bef499eb9/platform_plugin_forum_email_notifier/handlers.py#L14
46. Send ORA Submissions to Turnitin: https://github.com/eduNEXT/platform-plugin-turnitin/blob/03aaa0fcb089c61d18b71a25ce39bcc689c8f972/platform_plugin_turnitin/tasks.py#L28
47. Open edX ↔ Credly integration: <https://github.com/openedx/platform-roadmap/issues/280>
48. Create external certificates: https://github.com/eduNEXT/eox-nelp/blob/master/eox_nelp/signals/receivers.py#L110 → this verifies that the publish action is active and validates the certificate mode in order to publish just certificates with valid modes
49. Update search indexes when content changes: <https://github.com/openedx/edx-platform/pull/34391>
50. Send tracking events over the event bus for Aspects: <https://github.com/openedx/openedx-events/pull/230>
